Pulse Check (Analysis)

The data doesn't lie, and neither do we! Our Q1-Q2 performance shows Pulse Mobile isn't just growing—we're creating genuine connections. Gen Z continues to lead our sign-up growth (averaging nearly 60% of new customers), while our community events are absolutely crushing it with participation up 210% from January to June.

As our community expands, so does customer satisfaction—reaching an all-time high of 4.7 in June. This isn't just about selling phone plans; it's about building a movement where transparent pricing meets authentic community impact. The shift in popular plans from “Flex” to “Community” shows our audience isn't just looking for flexibility; they want to feel part of something bigger.

Social mentions have more than doubled over six months, proving that when you create genuine connections, people actually want to talk about you! With event engagement consistently above 25% of our customer base, Pulse Mobile isn't just a service provider—we're becoming an essential part of our customers' social landscape.

Let's keep this momentum going and continue to disrupt the industry with plans that make sense and community initiatives that make a difference. The pulse is strong, and it's beating to our own rhythm!
